As a B.Tech student majoring in Computer Science Engineering at Raj Kumar Goel Institute of Technology, I possess strong proficiency in Java, Python, and C, with hands-on experience in web and Android development. My excellent problem-solving abilities, capacity to thrive under pressure, and dedication to continuous learning and development, combined with my academic achievements and teamwork skills, make me a strong candidate for internships and entry-level positions in software development.

EDUCATION

- Raj Kumar Goel Institute of Technology, Ghaziabad
  Bachelor of Technology in Computer Science (CGPA-8)   **September 2021- June 2025**
- BSS Education Centre, Kanpur
  Intermediate (PCM)   **2019 - 2020**

PROJECTS

- **Bol Do** |Java, Microsoft Azure, Firebase|
  Created a platform that aims at providing various features such as Text-to-speech converter.
  - Java for Android app development.
  - Microsoft Azure for backend infrastructure.
  - Implemented Firebase for real-time database and authentication, resulting in a 50% reduction in login failures and a 30% improvement in data retrieval speed, enhancing user experience significantly.
- **Empower Her**| HTML, CSS, JavaScript|
  Developed and implemented a user-centric website offering immediate access to various medical and healthcare facilities for women, boosting site traffic by 60% and improving service delivery efficiency by 30%.
  - HTML, CSS, JavaScript for front-end development
  - RESTful APIs for communication between the frontend and backend.
  - Microsoft Azure for cloud hosting.
- **Rentals** |Java, Android Studio|
  Rentals is a user-friendly app for seamless car and bike rentals.
  - Programming Language: Java
  - Development Environment: Android Studio
  - Data Management and Layout: XML

TECHNICAL SKILLS

- **Languages:** Python, Java, HTML, CSS, JavaScript, MySQL

- **Developer Tools:** VS Code, Android Studio, GitHub, Microsoft Azure, Firebase

- **Relevant Coursework:** Data Structures, Algorithms, Object Oriented Programming, DBMS, Computer Networks

COURSES & CERTIFICATIONS

Ethical Hacking – NPTEL
HTML, CSS, and JavaScript foe Web Developers – COURSERA
DevOps for beginners – COURSERA

ACHIEVEMENTS

- Participated in Wie Hack 4.0, a 36-hour women-centric hybrid international hackathon focused on empowering women in technology.
- Triumphed in the Air glider and Hydro shoot College Level Competition, applying engineering principles to design and build winning entries.
